

Sustainable Integration of Distributed Energy Resources for Power System Development

SPONSORSHIP OPPORTUNITIES

The Southern Africa National Committee of CIGRE will be hosting its 9th Regional Conference and the study committee B4 (DC systems and power electronics) international colloquium. The joint session will be held at Misty Hills Hotel in Muldersdrift, Johannesburg from the 1st to the 5th of October 2019.

The joint session will provide a platform to deliberate on this years' chosen theme: ***sustainable integration of distributed energy resources for power system development***. These discussions will be between representatives from power utilities, system operators, regulators, manufacturers, suppliers, universities, standardizing bodies, research laboratories and authorities.

As in the past, an exhibition will run alongside the conference. The associated exhibition represents an excellent opportunity for product promotion directly to key decision makers in the region and further afield. For maximum exposure, the exhibition is fully integrated with the other conference activities. The exhibition hall will be the location for all tea/coffee breaks and lunches, as well as the registration area. A plan of the layout is attached. A shell scheme will be provided and each stand equipped with one plug point and two spotlights. A trestle table and two chairs can be provided by the venue.

Expectations are that approximately 350 delegates will attend with more than 20 exhibition participants.

KEY DATES:

30 Sept	Exhibition Build-up from 13h00
1 Oct	Exhibition / Tutorials
1 Oct, PM	Welcome Cocktail Function
